28	1936 Harrington's Ltd Camera releases catalogue - "Buy British Made". 44 pages	20		
29	2 Catalogues - Cine Kodak Kodascopes 1939. Includes movie cameras including the Cine Kodak Special and Cine Kodak BB, projectors tripods, and a lovely color section on Kodachrome film. Plus 1939 Pricelist. Also Goodman Brothers 1956 equipment catalog - includes Leica 3f, M3, Contax IIa, Robot Royal, Minox B, movie equipment and accessories. It even has a risqué photo on the rear cover :-)	25		
30	Leica. The Program. Catalogue of all Leica Photographic products, Binoculars etc. c1998. Includes the C11 APS camera, the S1 professional digital camera, M6 TTL, R8, R6, lenses, binoculars, projectors and spotting scopes. 135 pages	35		
31	2 books. Canon - The ABC's of picture taking ease with the Canon AE-1 and AV1, and Camera Catalogue - A World Guide c1983	20		
32	Cosina CX2 Compact 35mm camera - auto exposure - manually focused 35/2.8 lens. Built in self timer. Front cover rotates to expose lens. Batteries fitted, LED's light in viewfinder and shutter speeds change in different lighting conditions. This is the camera the Russians copied to make the Lomo LC-A, which became a Lomography cult classic	125		
33	Small Red Stereo Viewer made in USA, complete with approx. 50 stereo slides - everything from nature to a Nautilus submarine. Appears late 1950's/early 60's. EC	40		
34	Stereoscope Lestrade SIMPLEX (France) with 11 strips of slides (Views of France) Cards and viewer in excellent condition - slides have not faded	40		
35	ADOX 300 c1956. Uncommon camera with interchangeable film magazines - films can be changed mid-roll. 45/2.8 Steinheil Cassar lens in Synchro Compur shutter (lens very good, film wind good, slow speeds below 1/15th sluggish). Lightmeter works. Cosmetically EX. This is an early example engraved "Dr C. Schleussner Fotowerke GmbH and Made in Germany" on the top cover. In leather case. And it comes complete with a second spare FILM MAGAZINE - also in it's leather case.	180R		
36	Pentax 110 camera outfit - Pentax Auto 110 camera, with 18, 24 & 50mm lenses, each of which are fitted with original Pentax 110 UV Filters and original lens caps (the 2 lenses no on the body also have their rear caps). Camera body is working (lightmeter changes from yellow to green, and shutter speeds change). Complete with matching flash, wrist strap, and Pentax Belt Clip attachment in original embroidered PENTAX fitted case - which still has it's original key! A lovely outfit	100R		
37	Ensign FUL-VUE in original green box, complete with strap in box. This is the original square sided (and far less common) 1939 version in EX condition	60		
38	Durst 66. Unusual camera taking 120 film, made in Italy c 1956. Grey hammer tone/leather finish. Pneumatic shutter with speeds of B, 1 sec to 1/200th (shutter works fairly accurately). Color Duplon Lens. Built in extinction meter	80		
39	2 BEWI Lightmeters - both working. Lovely white plastic with gold metal hammer tone Bewi Amateur meter in case with strap and instructions, and a Bewi Electro Super	30		
40	2 Lightmeters - Gossen Metrastar - CDS meter with built in "spot" meter waist level viewfinder (untested - no battery). Plus unusual "Combi Meter" - German accessory rangefinder with built in extinction meter (works - in case)	40

Lot	Description	\$ est	Price	Buyer
42	ALPA-ALOS Macro Outfit in original travel case. Unusual macro flash outfit, which utilizes triangulated light beams to achieve correct focus (like the "Dam Busters" did in WW2). The camera is a Alpa 11a fitted with an ALOS 35/3.5 lens. The camera works, and is in good cosmetic condition (a piece of leatherette has come unstuck from the top of the camera, but is in the case), and the flash unit is complete with power supply and shutter release handle, but we have not been game to charge the flash.. An Alpa 11a with Alos lens is currently on sale on it's own at the Leica Shop in Vienna for 390 Euro.	350		
43	Plaubel 6x9cm 120 roll back. Manual wind. A bit scruffy externally, but looks new inside where it matters.	40		
44	Something any photographer would appreciate - a toilet paper holder in the shape of a 35mm film cannister. New in box	25		
45	Mandelette camera by the Chicago Ferrotype Company. 1920's while u wait camera. Missing strap and tank, sleeve good, shutter works, internal mechanism present. VG	60		
46	Pentax K20D Digital SLR with 35-80mm Sigma lens, battery, charger and 4GB Sony card. 14.6MP K Mount APSC digital camera (works well - I took a few test shots to make sure). You can use K Mount manual or auto focus lenses with this camera. Body has built in image stabilization and live view mode.	150		
47	Novoflex f5.6/400mm rapid focus lens with shoulder stock. Lens shows signs of wear cosmetically, but is working correctly. Front lens element has some separation on the edges, and some cleaning marks. Complete with adjustable shoulder stock (near new in box). Lens is Exakta mount, and comes fitted with an Exakta to Micro 4/3 adapter. I had a play with it, and it is a very sharp lens (producing nice shots of the moon)	150		
48	2 X Nihon Kodan (Made in Japan) Shoe Mount Lightmeters - both respond and produce similar readings. Both come in leather cases	50		
49	Perfex Twenty-Two. Made by Candid Camera Corporation of America between 1942-45. Cloth focal plane shutter, coupled rangefinder, f3.5/50mm Wollensak Lens. VGC	75		
50	Imperial Duplex Exposure Meter - doubled sided lightmeter - No1 Bright and No2 Dull Light & Interiors meters, with original box (needs repair) and both instruction books	50		
51	Optomax binocular/camera c 1980. 4x30mm focusing binoculars plus 110 telephoto camera - EX condition with strap.	75		
52	Novoflex "LEIEX" - Exakta to M42 adapter - VG	30		
53	Book - Last Sitting - Bert Stern. Photographs from the last sitting Marilyn Monroe did 6 weeks before her death in 1962. Hardcover with dust jacket.	30		
54	ARSEN. c1944. Special version of the Gelto sold by Ars, publisher of Ars Camera, a Japanese camera magazine. The Arsen is different form the standard Gelto, the main difference being it is a 4x4 cm format camera, as opposed to the 3X4 of the Gelto. F4.5/5cm Grimmel Lens, Arsen shutter. Complete with Arsen lens cap on chain. A lovely display, but the lens guides need repair as the lens can accidentally be rotated off. Focus does work, as does the shutter	150		
55	Sabre 620 - 1950's RED Plastic box camera	25		
56	Kodak Signet 50. Late 1950's camera fitted with f2.8/44mm Ektanar Lens in Kodak Synchro 250 Shutter. Works well (needs film in camera to work). With case - EX	60		
57	Rondo Copy Tube 8. Film copier attachment for M42 screw mount cameras - allows copying 8mm film frames onto 35mm film (or digital via an adapter). As new in box.	25		
58	ACMEL License 4 - ID camera made in Japan - 4 photos on Polaroid film - EX	30		

Lot	Description	\$ est	Price	Buyer
59	Ashai Pentax SP 500 fitted with Super Takumar f2/55mm lens. In very good condition - lens clear, camera works but lightmeter untested. In case	80

64	Book - Lens Works III - most recent book from Canon covering EF Lenses - EX	30		
65	Tropical Kodak Film Pack 3 1/4 X 4 1/4 in sealed metal container. Best before Dec 1948 - Kodak Australasia	20		
66	Kodak "KODIREX" 5 x 7 inch X-Ray film - Kodak Australasia Melbourne	20		
67	Canon EOS 700 with Canon EF 35-80 power zoom lens. Unusual Canon film camera - 2 modes that are changed by reversing the dial - one side has auto/program, the other shutter priority. The lens is Canon's first EF mount power zoom lens	50		
68	Kodak Retinette - Folding camera made in Germany. F4.5/50mm Schneider Reomar lens in Kodak Prontor shutter (shutter sticks). In case - VGC	40		
69	Boxed Linex Subminiature Stereo Camera Outfit c1953. This is the most complete outfit I have ever seen, in excellent/as new condition (but some wear to the box - see photo). Camera is mint and works correctly, and comes complete with original tartan case. Also included are the original flash unit (some tarnishing to reflector), stereo slide viewer, 3 film cartridges in boxes (1 is in camera), and instruction book	250R		
70	Canon Canonet 28. Selenium powered auto exposure 35mm camera. F2.8/40mm Canon lens. Complete with case and cap. Looks near new. Works perfectly	40		
71	Reflex Korelle. 1930's 120 SLR. 80/3.5 Carl Zeiss Jena Tessar Lens.Works when shutter cocked by winding shutter dial - speeds change. Cosmetically good - with case	120
